Development and Peace - Caritas Canada
www.devp.org/campaign
While the most vulnerable populations in the Global South are facing an increase in conflicts, climate change, and the plundering of resources, funding for intentional aid and development is being threatened. Like many countries in the Global North, Canada has announced cuts for $2.7 billion to official development assistance over the next four years. This affects health and education systems, exacerbates poverty, and widens inequalities in the poorest countries. We are already seeing the repercussions on a global scale. These countries do not have the systems and they need our help. Together let's make international solidarity a priority. *Please join our movement by becoming a member. Lifetime membership is free until February 10th Your voice can make a difference!*
